

About our Wines...

I have worked hard to develop a diverse and interesting wine list, using the knowledge gained from continual tastings and talking with winemakers and suppliers. I have created a representation of wines from around the world, offering different varieties and styles suitable for most tastes and palates. All these fine “nectars” have been selected for their quality and value for money.

There are some beautiful examples from both small family producers and large winemaking Domaines; they all have their place in this book. The wines are listed according to their region to ease your decision with more than 350 wines in order of price.

You will notice that some vintages in this list are unbeatable value for money with some from the 1970s to the present day. These “reserve wines” are from the proprietor’s own cellar, bought *en primeur* through various suppliers and private collections. This allows me to present an extensive assortment of fine bottles in immaculate condition.

The team and I always have guest’s enjoyment in mind and we truly believe in the philosophy of drinking what you like, when you like! If you need some assistance regarding your selection, the team of Sommeliers will be very pleased to offer its services and knowledge about every wine in this book and more besides.

If you have any suggestions for improvements to the selection, I would be more than happy to discuss these with you or alternatively you may email me at sommelier@theswanatlavenham.co.uk.

Happy drinking and have a great meal!

Collection Wines by the glass

Enjoy a glass of wine from some of the greatest sites and producers in the world...

Without even pulling the cork the Coravin™ System has allowed us to offer by the glass some of our rarest wines from the cellar. The bottle is pressurized with Argon, an inert gas that will protect the wine from oxidation and leave the remaining wine unaffected.
